Press Release

DATE.

4th March 2011

Lack of North Wexford

Representation is bad for business.

Enda Kenny urged to Support Business, Control Public Expenditure and Tell the Truth.

The Business community in North Wexford has expressed concern at the lack of Dail representation in North Wexford following the general election.

A full survey had been undertaken of members of Gorey Chamber during the week and the over whelming view of responses received was that no TD in North Wexford was bad for business.

Speaking from his office in Gorey Business Park, Dick White, Gorey Chamber CEO commented "We did a full survey of our 154 members and in excess of 83% of responses received felt that no TD in North Wexford is bad for business. This is a strong statement and all political parties would be wise to take account of it. We will be presenting our views to the newly elected members and will be seeking all their support into the future"

Members were also asked that if they were to make one suggestion to Enda Kenny what would it be? 36% would ask him to support business, 21% would urge him to control public expenditure and a further 21% want him to tell the truth.

IN BUSINESS...FOR BUSINESS

Noting these preferences White commented “ Business needs support and this is reflected in the response from members. The requirement to control public expenditure is sought by 1 in 5, the same level that wants Enda Kenny to tell the truth. These in my view a strong statements and reflect the view of many in society. He should help retain existing jobs, support new business, tell us all what the truth and facts are and control public finances ”

White concluded by noting that “83% think that a new government will make a positive difference, this is a very favourable statement for the new government, but brings with it, a level of expectation which will have to be delivered upon”
